

**SEPTEMBER 24, 2021**

The two-year construction of the Highway 101 Improvements project is nearly complete. The contractor has completed installation of all underground utilities and is now focused on construction of the road on the final phase of the project south of the Pioneer Trail intersection.

Over the next few weeks, the following construction activities will occur in preparation for the opening of Highway 101:

- Curb and Gutter Placement
- Concrete Median Placement
- Bituminous Roadway Paving
- Trail Paving
- Roadway Striping and Sign Placement
- Traffic Signal System Modifications
- Final Grading and Seeding

Pending any weather delays, the current schedule is to open Highway 101 to traffic by the end of October.

Landscaping is scheduled for the spring of 2022 once grass has been established.

Thank you for your patience over the last two years during the construction of this important project.

MORE INFORMATION ON THE PROJECT CAN BE FOUND HERE:
