

JUNE 1, 2022

Final construction activities have resumed on the Highway 101 Improvements project. The following construction will occur this month:

- Landscaping and tree planting as a part of the project's reforestation plan.
- Minor grading and paving at isolated locations.
- Final seeding as necessary.

Highway 101 will remain open to traffic from Flying Cloud Drive to Pioneer Trail during all 2022 construction activities; however, daily lane closures will be necessary to facilitate the landscaping and tree planting.

Thank you for your patience over the last two years during the construction of this important project.

MORE INFORMATION ON THE PROJECT CAN BE FOUND HERE:
